I don't have a problem with him his family whilst he's posted overseas and sending e-mails in office time. That's not the main issue. However, if he thinks he can² sending such abusive e-mails to colleagues, he is sadly mistaken and he'll have to face the consequences of his actions later. He is clearly³ about his colleagues and spreading nasty rumours. He'd be better off speaking to colleagues⁴ if he has problems with them. He's slightly better when speaking with customers, but he needs to think about who he's speaking to when he's our products to them. And he just doesn't know how to say no to people without⁶.

G Discuss these questions.

- 1 "Business is best done face to face." Do you agree?
- 2 How could communication be improved in your organisation?
- 3 How will communication change in the office of the future?
- 4 What do you do when you receive a nasty e-mail?
- 5 Is communication better these days with all the new technology?

by Luke Johnson

E-mail might just be responsible for the productivity increases that economists tell us are the key to rising prosperity. But it could also be sending us all mad.

The truth is that business is generally best done face to face, and if that is impossible, then speaking via the phone. But too many of us now hide behind silent, typed communications. The trouble is that the recipient of an e-mail does not hear a tone of voice or see a facial expression; nor can the sender modify their message halfway through, sensing that it is causing offence. When you read an e-mail, you cannot tell the mood of the e-mailer.

A permanent written form is deadly if you are feeling impetuous and emotional. Too often I have made the mistake of sending an irritable response, which will have festered and angered the other end much more than a difficult telephone exchange. Spoken words fade, but e-mail is forever.

It is so much easier to be tough via e-mail, or to get away with weak excuses, or to make things up, or to say no. Almost invariably, it is more human and serious to have a real discussion rather than a bizarre online conversation. I know employees who have been fired for sending abusive e-mails, or who have faced severe legal consequences for writing something they should have just said verbally.

Everyone in business finds their inbox is almost swamped every day with spam. I notice I spend longer

and longer sorting out the e-mails that matter from all the junk. It has become, I'm afraid, a dangerously corrupted medium. Large companies suffer chronic overuse of 'reply to all'.

Moreover, e-mail can be a terrible distraction, especially if you use a BlackBerry. I was recently reprimanded for peeking at mine during a board meeting – a gross form of hypocrisy on my part, because I once threatened to sling out of the window any PDA-type devices being used in meetings I chaired. I have now vowed to switch off both BlackBerry and mobile in all meetings – anything less is uncivil.

It must be admitted that e-mail is hard to beat as a transmitter of documents and data. It forces the sender to carefully think through their arguments and express

themselves logically. It allows you to reply swiftly to a host of different questions when time is short. You don't have to worry about journey times or travel costs, unreliable postage or engaged phones or voicemail.

E-mail is a marvellously economical tool for keeping in touch with far-flung commercial contacts; you can send them a note at your leisure, 24 hours a day. It is also a terrific method of discreetly and directly pitching to someone powerful. It certainly beats trying to get a meeting or even reach them on the phone.

Like it or not, I could not do my job without e-mail. Meanwhile, I know a senior financier, an ex-chair of a FTSE company, who still has his secretary print out his e-mails for him to read so he can then dictate replies for her to e-mail back. Now that really is mad.

The price of success

Poor communications are affecting the performance of a fast-growing electronics company

Background

Based in Seattle, US, W.C. Hooper Inc. (WCH) is a manufacturer and distributor of hi-tech electronic products, ranging from executive toys to state-of-the-art digital cameras. The company has grown rapidly in the last 20 years and until recently, its performance has been excellent. However, problems have arisen concerning communications, both internal and external, and these are beginning to impact on the efficiency of the business. A new Communications Director, Betty Friedman, has been hired, and one of her tasks is to improve communications in the company.

A product defect

A weakness in the company's communications was highlighted by the following incident. What mistakes do you think were made in the way this problem was handled? How could they be remedied?

About three months ago, a customer found a fault in WCH's most up-to-date, multi-functional cell phone. Her phone became very hot after being recharged and it burned her hand. 'It was so hot, I thought it would explode,' she said. The customer complained to the Customer Service Department, who sent her a replacement phone. The employee dealing with the complaint did not inform either the Marketing or R&D Departments about the fault. After this incident, there were a number of similar complaints. As a result of bad publicity, the phone was withdrawn from the market.

Lawrence Discount Stores

Another incident a few weeks ago showed that internal communications in the company were not working well. Read about the problem and discuss the reason(s) why WCH lost an important customer.

Richard Lawrence, one of WCH's best and oldest customers, phoned William Hooper about the company's new digital camera, the EX-120. He told Hooper that he'd probably be placing an order for 5,000 of the products in the next few weeks. Hooper passed on this information by phone to the Sales Manager. When Lawrence sent in the order five weeks later, the Sales Manager sent him an e-mail saying that unfortunately the new product was out of stock. Lawrence complained to Hooper, who asked the Sales Manager why he hadn't given priority to Lawrence's order. The manager replied, 'I was waiting for him to confirm his order. I didn't realise that his order had to be given priority.'

The new Communications Director

Betty Friedman, the new Communications Director, hired a firm of consultants, Ward Associates, to analyse the communications problems in the company and to come up with recommendations for improvement. Read this extract from the report.

1 Internal communications

Problem:

Communications between Directors and Heads of Department need to be improved.

Recommendations:

- Heads of Department should send weekly reports to the Board of Directors. This would enable Directors to keep in touch with key developments in the company.
- A new manager should be appointed to be in charge of key accounts, such as the Lawrence Discount Stores account. He/She would ensure that key customers were given personal attention.

2 Sales reps/Head Office

Problem:

Head Office is not receiving information quickly from sales representatives. This has resulted in delays in processing orders and insufficient information about customers.

Recommendation:

Issue all sales reps with BlackBerry devices and instruct reps to send daily reports to the Sales Department.

3 Customer Services Department

Problem:

The department needs a new procedure for dealing with product complaints.

Recommendation:

Any complaint about a product which has health and safety implications should be forwarded immediately to the following departments: Marketing, Research and Development, Public Relations.

CD1.7 William Hooper is talking to Betty Friedman. Listen to his reaction to the consultants' recommendations and summarise his attitude to weekly reports, appointing a new account manager, and defective products.

CD1.8 Listen to Joanna Merkowitz, a sales representative, talking to Betty Friedman about the consultants' recommendations. Why is she against giving daily reports? Why does she enjoy her job so much?

Task

- 1 Work in small groups. You are members of the Board of Directors. Discuss each of the consultants' recommendations. Decide whether you agree or disagree with each recommendation, noting down your reasons.
- 2 Consider any other ideas that your group has to improve communications in WCH.

Watch the Case study commentary on the DVD-ROM.

Writing

As Communications Director at WCH, write a follow-up e-mail to the Head of Ward Associates, summarising the decisions you have taken, with your reasons.
