Holmes lights a **match**. The **crushed skull** is covered in blood. The body is wearing a tweed suit: it is Sir Henry!

Mic îndrumar

Faimosul detectiv Sherlock Holmes este chemat să învestigheze un caz straniu. Sir Charles Baskerville a fost găsit mort în conacul său, lângă urmele de pași ale unui câine gigantic. Potrivit unei legende medievale, familia Baskerville era blestemată și bântuită de un câine diabolic. Numeroși membri ai familiei ar fi pierit subit, în împrejurări misterioase. Pe deasupra, mostenitorul defunctului, Sir Henry, care trebuie să meargă la Devon pentru a lua în stăpânire conacul, a primit deja un bilet de amenintare, prin care este avertizat să se tină departe de acele locuri. Ocupat până peste cap la Londra, Holmes hotărăste să-l trimită pe bunul său prieten, Watson, la Baskerville, ca să aibă grijă de Sir Henry. Înainte de plecare, il previne pe Watson: misiunea lui este foarte periculoasă si s-ar bucura să îl revadă în viată...
